

## CIG Participated in Network X, 2022, RAI Amsterdam

From October 18-20, 2022, Network X (formerly BBWF) was held at RAI, Amsterdam. It attracted over 16000 exhibitors and visitors from 105 countries. CIG was proud to participate as a gold sponsor of the show.

Combining Broadband World Forum, 5G world, and Telco Cloud in one three-day event, provided a highly efficient and multi-faceted interaction platform for all participants. Operators, system integrators, distributors, equipment suppliers, component manufacturers, industry analysts, and investors came together to exchange ideas and to share their latest product developments.

Under the theme "Your Wired and Wireless Equipment Partner", CIG showcased its current portfolio of solutions:

- XGS-PON and PON (ONT, SFP+ and SFP) devices
- 4G/5G Small Cell products (distributed R-RAN)
- Home/Enterprise Wi-Fi Solutions Supporting OpenSync, TIP, and Other Open Source Platforms.
- Optical Modules

CIG's products were very well received by customers, partners, and other visitors.
